THE LEDGER is the largest daily paper printed in Maysville—count the columns and measure their length. It gives you more reading matter than any other. It is sold at the same price as any other Maysville paper—one cent a copy or 25 cents a month, delivered by carrier or sent by mail. If you are looking for the most for your money, you can get it in THE LEDGER. Now is the time to subscribe—suppose you give it a month's trial.

Circulation More Than 1,000 Daily.

The Business Way!
The business way to advertise is to take space by the year, take pains with your advertisements in making them attractive, and change them at least as often as once a month.

You may think there are seasons when you don't need to advertise. We have never seen that time.

Use the dull seasons for looking over your stock and running off that which is becoming out of style or unfashionable, and giving bargains.

If you have space by the year, it costs you no more, and you can make it profitable by converting unsalable goods into money, and reinvesting the money in those things which are salable.

THE financial stringency accounts for a good many phases of the general depression, says *The Times-Star*, but it does not explain why hundreds of factories are shut down and others are closing.

Commercial and mercantile establishments are not closing. While they feel the pinch, the life is not crushed out of them nor are prospects overcast.

The difference between these branches of business and that of the producer is marked. The manufacturer must look far ahead. He cares less about the outlook for this year than the probabilities of next year and the year after; and, as Mr. McKinley has expressed it, "manufacturers are not going to produce for the future and pay protection wages, when their products may have to compete with like products under free-trade wages."

Proprietors of factories have taken the Democratic party at its word. The National convention declared that Protection was unconstitutional, denounced the McKinley Law as "an atrocity," and said that the Democratic Congress would repeal it.

Are manufacturers to be criticised for yielding to their apprehension? The Democracy has had control of the Government since March 4th. During all this time the country has been totally in the dark about the details of the Democratic Tariff programme and when to expect the performance to begin.

If Mr. CLEVELAND and the leaders of his party had foresight they would have known that a long period of uncertainty would be disastrous to our industries. The President would have called Congress at once, so that the "reformers" could have begun the work of revision in April. Then the whole matter could have been settled by fall, enabling manufacturers to adjust their operations to the new condition by November or at any rate by January 1st.

They might adapt themselves even to Free-trade, for the burden would fall

upon labor; and although labor would suffer severely, workingmen would rather have low wages under Democratic Free-trade than no wages under Democratic uncertainty. While factories might have been idle during the summer, they could have been run in some shape during the winter.

But the Democratic party has never displayed business sense. Conceding that it is patriotic in its way, it lacks ordinary judgment in the conduct of public affairs. The fruits of its incapacity are now bitter in the mouths of millions.

We are told, truthfully enough, that this is a time for patriotism and not partisanship. The Republicans are never partisan except to be patriotic. They always act for the best interests of the country. They will so act during the present session of Congress.

Is it not the highest patriotism in the existing emergency to show up the Democratic party in its true character as a menace to American industries? The record condemns it. A patriotic press should not be silent.

ACCIDENTAL DEATHS.

Caused by Carelessness.

The majority of people die sooner than they should. Evidence of this fact is growing daily. Warning says: "Disease is not a consequence of life; it is due to unnatural conditions of living—neglect, abuse, want." Dr. Stephen Smith, on the same subject, "Man is born to health and long life; disease is unnatural, death, except from old age, is accidental, and both are preventable by human agencies." This is almost invariably true of death resulting from heart disease. Careless over-exertion, intemperance use of tea, coffee, tobacco, alcoholic or other stimulants are generally the causes of this difficulty, and indifference to its progress results in sudden death, or long sickness ending in death. By the newspapers it can be seen that many prominent and hundreds of persons in private life die from heart disease every day.

If you have any of the following symptoms: shortness of breath, palpitation, irregular pulse, fainting and smothering spells, pain in shoulder, side, or arm, swollen ankles, etc., begin treatment immediately for heart disease. If you delay, the consequences may be serious.

For over 20 years Dr. Franklin Miles, the eminent specialist, has made a profound study of heart disease, its causes and cure, and many of the leading discoveries in that direction are due to him. His New Heart Cure is absolutely the only reliable remedy for the cure of heart disease, as is proved by thousands of testimonials from grateful persons who have used it.

James A. Pain, editor of the *Corry, Pa., Leader*, states: "After an apparent recovery from three months of jaundice, I fell on the street unconscious from heart disease. In one month from that time I was unable to walk across my room, and my pulse ranged from 96 to 116 times a minute. I then used Dr. Miles' New Heart Cure, and at once became stronger. After using six bottles I was able to work as usual and walk a mile every day, my pulse ranging from 68 to 80. Dr. Miles' remedy is not only a preventive but a cure."

Dr. Miles' New Heart Cure is sold by all druggists on a positive guarantee, or by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six for \$5, express prepaid. It is positively free from opiates or dangerous drugs. Dr. Miles' Pills, 25 cents. Free book at druggists, or by mail.

WIZARD EDISON.

He Talks About the Inventions
He Will Soon Reveal.

Objects Reproduced and the Reproduction Able to Talk.

Combination of the Photograph and Kinetograph—It Will Show a Man's Every Motion and the Likeness Will Speak Making Imitation Rubies.

CHICAGO, Aug. 19.—"Wizard" Edison is at the fair. He was found eating a sandwich in the agricultural building Friday, and gave a very interesting interview. After stating that he was done interviewing electrical applicants because the laws of this country were such that great delays could be secured by persons stealing others' brains and thereby render inventions valueless, he said:

"I have a new model phonograph that will be brought out in a short while. An invention that is entirely new, and on which I am just putting the finishing touches; is the kinetograph. This is to the eye what the photograph is to the ear. By this machine figures can be produced on a screen. Every shade of expression and every gesture can be perfectly reproduced. To make this machine I had to take forty-six pictures a second. This is equal to the capacity of the eye. Ten or twenty, or even thirty pictures a second would show the movements of the arm, for instance, in jerks, but with forty-six photographs a second the arm is seen to rise just as the human eye sees it and with the same speed.

"A combination of the phonograph and the kinetograph, which I shall probably call the phono-kinetograph, I have also in the course of construction. This will show a man's every motion and the likeness will speak. I have always used a great many supplies in the manufacture of phonographs. They are very expensive and sometimes very hard to procure at all. I analyzed the chemical composition of the sapphire, and finding out what it was, started to make sapphires. I now make all that I use. I can make rubies for \$5 a pound that in beauty far exceed the genuine. I look at the fair from this standpoint: No man who makes his living by his intellect can afford to stay away from it. I put it on a business basis. I find new ideas of motion and many other things in everything I see. It is all a study for me."

Think the Government Unjust.
SAN FRANCISCO, Aug. 19.—Harold Leibes, president of the North American Commercial Co., says the demand of Secretary Carlisle for back rent for sealing islands unjust. He says his company has a contract with the government permitting them to take 100,000 seals, but that they are restricted finally to 5,700 per year. For the use of the islands they paid \$55,000 per annum, but this was cut to a pro rata basis. He says it would be very unjust now to make them pay the full \$55,000.

Driving Out Chinese.
FRESNO, Cal., Aug. 19.—At 1 o'clock Friday morning a telephone message from Roeding's vineyard, two miles from Eggers announced that one hundred unemployed men were driving the Chinamen from that place. Sheriff Scott was notified, and immediately left for Roeding's with a posse of armed men. They met the raiders between Eggers and Roeding's, and compelled them to return to Fresno. The names of the men were taken, and their arrest will follow.

Prisoners Strike.
BOSTON, Aug. 19.—The prisoners at Deer Island struck Friday because they claimed the chowder had been watered and the potatoes were too small. For two hours they were in rebellion. Word was sent to this city and a force of policemen went to the scene. Twenty of the men had to be clubbed into submission. Some of them are so badly injured as to refuse hospital treatment. One prisoner was shot while attempting to climb a fence.

Want Free Coinage.
CLEVELAND, O., Aug. 19.—At a large and orderly mass meeting of the unemployed last night on the Public square, resolutions calling on Congressmen Tom L. Johnson to vote for free silver coinage were adopted and telegraphed to him, and a committee of one hundred appointed to continue the agitation for legislation favorable to the workingmen. About 5,000 persons were present.

To Be Given Work.
CHICAGO, Aug. 19.—Relief for Chicago's unemployed is on hand. A committee is already at work devising means by which the unfortunate may subsist during troublous times promised for the winter. Contractors are putting in new machinery and bids are already made for further work on the drainage canal, so that by winter fully 8,000 men will be employed.

IN THE HOUSE.

The Silver Debate Continued—New Rule for the Appointment of Committees.
WASHINGTON, Aug. 19.—The silver debate was continued in the house Friday. Mr. Sibley, of Pennsylvania, was the first speaker. He spoke in support of the measure introduced by Mr. Johnson, of New York, providing that holders of United States bonds may deposit the same in the treasury and receive for them treasury notes. Such a measure, he thought, would have the immediate effect of increasing the currency and relieving the financial stringency.

When Mr. Sibley concluded, Mr. Calchings submitted a rule for the appointment of committees, stating that the only changes from the same rule in operation in the last congress were in the enlargement of the membership of certain committees.

The changes were as follows: Increasing the membership from fifteen to seventeen on the ways and means, appropriation, judiciary, banking and currency, interstate and foreign commerce, rivers and harbors and agriculture; increasing from thirteen to seventeen the committee on coinage, weights and measures; increasing from thirteen to fifteen on committees on foreign affairs, military affairs, naval affairs, public lands, Indian affairs, public buildings and grounds, Pacific railroads and the District of Columbia.

In case of the resignation or death of a chairman of a committee the next senior member shall become chairman. Report adopted.

A night session of the house was held Friday evening at the request of the free coinage men. Jerry Simpson concluded his remarks begun Friday afternoon and was followed by Mr. Talbert, of South Carolina.

UNION CITY, IND.

Flames Destroy Valuable Business Property—Fire Supposed to Be of Incendiary Origin.

UNION CITY, Ind., Aug. 19.—Another destructive fire visited Union City Friday night. It broke out in McKee's livery stable, which was consumed, together with Worthington's hardware store and Thos. Key's tailor shop.

Mrs. Smock's dress-making shop, over the hardware store, and the Smith heirs' residence, over the livery stable, were entirely destroyed. Dr. Proctor's residence was badly damaged. The fire is supposed to have been the work of an incendiary.

The following is the insurance and losses: Wm. Shaker's loss, \$3,000, insurance, \$15,000; A. T. Worthington's loss, \$1,500, insurance \$7,000; R. B. McKee, insured for \$1,000, loss \$500; Smith heirs' loss, \$4,000, fully covered by insurance; Mrs. Smock's loss \$250, no insurance; John Eisenman's loss \$400, no insurance. The new Odd Fellows' building was damaged \$200, and the Butcher building \$250. This fire followed close on the big opera house fire of June 27.
